

Serviced Office Space UK

Crawley RH6 0PA

The Gatwick Express runs a fast service between Gatwick and Victoria station every 15 minutes, making Gatwick convenient south of England location. There is also a bus right outside the building, which runs to the Gatwick terminals almost every 10 minutes right through the night. In addition, the nearby town of Crawley has plenty of facilities to use away from the office. Hotels, in the form of the Crown Plaza, for example, are available along with eateries and well-known shopping outlets, including Marks & Spencer.

This business centre is located within a famous landmark building, the original Gatwick airport terminal building dating back to 1935, when commercial aviation as we know it today was still being pioneered. The building is ideally located close to Gatwick's North terminal within the airport's central business district. This piece of aviation history has been fully modernised to provide a world-class business environment offering fully furnished, equipped and supported office spaces. This centre is truly unique with its vast car park and exciting Art Deco exterior contrasting with the leading edge IT and telecoms technology and contemporary interior styling.
