

# Serviced Office Space UK

---

## 1 Little King Street

**Bristol BS1 4HW**

The building has easy access to major motorway networks M4, M5 and M32. Local amenities include restaurants, traditional pubs, bars, cafés and main shopping areas. The space is close to a number of beautifully landscaped outdoor spaces including Queen Square. Bristol is awash with wonderful attractions, including the famous Brunel's SS Great Britain, as well as a variety of museums and galleries. Bristol Airport is located outside of the city centre, and is easily accessible by car in under half an hour.

This building on Little King Street was built during Bristol's Georgian heyday following the construction of Queen Square in 1702, at which time it was the second city of England. There are two individual offices on the ground, first and second floors. There is also a further room with natural light situated on the lower ground level. All offices have use of shared kitchen/breakout facility. There is plenty of public parking nearby, great for both staff and also any visitors arriving. The cleaning team keep the spaces tidy and looking professional at all times, always creating a good impression.
