

Serviced Office Space UK

London EC2M 2PF

Sitting in the heart of Broadgate – the largest pedestrianised area in Central London – the centre is located in a diverse community that is known for innovation. Tenants will find an array of new food, retail and cultural options to explore on their lunch times. The space is nearby to Liverpool Street station – a key hub within the Capital offering a multitude of underground and rail services. Shoreditch, Spitalfields and the City are also within walking distance, meaning you will never tire of the options available both on your lunch and after work.

Due to open its doors very soon, this Broadgate-based centre brings a unique design which contrasts and industrial, rugged style with contemporary elements. The centre boasts stunning metal beams and clashes this with glasswork and wood floors. Tenants will be sure to be impressed with the incredible central atrium, as well as the roof terrace – an ideal space to chill or mix up your working environment. The Grade II listed building has lots of natural light and communal areas which makes for a productive atmosphere. The building is also accessible 24 hours a day, meaning you can work late into the night if needs be, as well as a fantastic onsite team on hand to answer any queries you may have.
