

# Serviced Office Space UK

---

## London EC2M 2PG

The space is based in Broadgate, an area famous for its innovative and financial roots. This large pedestrianised area boasts an arena for new cultural, dining and retail options. Tenants will also be close by to Spitalfields, Old Street, the City and Shoreditch, giving you lots of options on a lunchtime or post-work. Tenants have a unique opportunity to work in an area with the feel of an historical piazza that also happens to be situated in the heart of London. Transport connections are also first class, with Liverpool Street just moments away.

Taking its place in the heart of Broadgate, this new centre boasts eight floors of raw, contemporary space with cutting edge design. Award-winning architects are behind the centre's impressive style, which is a stunning contrast between traditional wood panelling and cool, stylish black flooring. Offices are open plan in layout and fresh, and the centre's magnificent roof terrace provides an alternative space to work, relax or have some fun postwork. The centre has state of the art technology, with a WIREDSCORE Gold rating. There is also a dedicated community manager, 24hr access, WiFi throughout and sound proofed phone booths.
