

# Serviced Office Space UK

## Dmc 02

### Barnsley S70 2JW

The centre located in Yorkshire. In the heart of the UK, and although the workspace gone under the radar for their success in the past, the town, and the work the centre do here is leading the way for cities across Europe learning from them. Not only are with proximity to two major UK cities in Leeds in and Sheffield, the space also just over an hour's drive from Manchester. The buildings are just across the road from the town's interchange giving clients access to where clients want to go. Not to mention the Active Travel hub based there to park client's bike. The centre is conveniently located and offers a range of office spaces for your business. The space is surrounded by an array of hotels, restaurant, bar, and cafes.

The building has been building a lively community of entrepreneurs and innovators for over ten years. This community is at the heart of a growing regional ecosystem of digital and creative businesses across Yorkshire that connects into the national and global tech landscape. The space is focused on bringing together people, business, talent, and support in a vibrant hub and provides easy access workspace plus a range of support dedicated to client's success. The expansion into the centre provides much needed grow on space for companies who are scaling up as well as flexible co-working facilities and a maker lab for technical product development and demonstrations. Join the space and clients can benefit from the extensive networks and connections, great workspace, and coffee plus dedicated, sector focused, business support. The workspace is at the heart of future plans for a Digital Campus that brings together partners in education and regeneration to develop a destination for living, working and innovating in Barnsley, close to our main travel hub and all the great facilities of our town centre that is undergoing a 160 million redevelopment programme to deliver great leisure, retail and urban spaces on our doorstep. The workspace enabled innovation hub delivered by the Enterprising Barnsley business support team. Enterprising Barnsley and the centre provide an award-winning platform for business growth and have helped countless companies over the last decade to achieve their ambitions. The team has a wide range of experience in the public and private sector and includes account managers, Launchpad start up support managers and a portfolio of professional business coaches across a range of expertise areas. The space plugged into the whole Yorkshire tech sector and with a few projects and products. The space wants to help businesses develop in a different way. The space bold and not afraid to try new things to make sure delivering the best possible support to our community. The centre host IoT Tribe North, a non-equity accelerator programme for early stage tech companies, bringing exciting global businesses into the Yorkshire tech ecosystem for three months at a time to connect with the network and marketplace. The workspace is constantly developing new support opportunities for businesses. This support is available as part of inclusive range of services to all of the centre community and dedicated Account Manager and Launchpad start up support team will work closely with clients and business to create a bespoke package accessing local and regional products and opportunities. The space helps the community access investment, R&D support, leadership, and organisational development programmes and introduce tech start-ups to a wide regional marketplace.
