

# Serviced Office Space UK

---

## London W12 0BZ

Get to work among the bright minds of Imperial College and the inspiring media legacy of Television Centre. Reach your new White City base easily, set just off the Westway and close to both Central, Hammersmith and City tube lines. Drop in to a thoughtfully-designed coworking environment, book a dedicated meeting room or customise an office space for a longer stay. When work is done, step out to explore local parks, or get clients together for food off Wood Lane. The centre is surrounded by an array of hotels, restaurants, and cafes.

The centre provides more than just an office space. The space offers flexible and scalable spaces. Completely tailored to client's needs, members only pay for what they need, whether it's a private office in one city and a shared desk space in another, the centre will find the right mix for clients. Running a business as an entrepreneur isn't always easy. Let the centre help clients advance in their business and improve performance management with access to training and networking events. The workspace can also help clients connect with others through the supporting community the centre has created. Connect with the workspace today and transform the way you work.
